

CERTIFICATION OF PUBLIC LOGIC AND ACCURACY TEST, HASH VALIDATION, AND FIRST TEST OF AUTOMATIC TABULATING EQUIPMENT

The authorized representatives of CITY OF HILLAND / HILLAND ISD and/or the General Custodian of Election Records, do hereby certify that the Public Logic and Accuracy Test and of the precinct scanner equipment to be used to count the ballots for the (GENERAL) Election to be held on (MAY 2, 2026) was conducted using a predetermined number of valid votes for each candidate and for and against each proposition on the ballot for the election.

Each contest position, as well as each precinct and ballot style, was voted for and accurately counted. Each type of device that will tabulate ballots, including precinct scanners and/or central scanners, whichever is applicable, was included in the testing.

The test group also included ballots with overvotes, undervotes (if applicable to the system being tested), multi-candidate races, provisional votes, and write-in votes (if applicable).

We further certify that a representative sample of voting system equipment was tested using a hash validation process to ensure that the equipment's source code has not been altered. The trusted hashes for each unique device in the voting system are for the most current version of the system and were obtained from the Secretary of State's office prior to the Public Logic and Accuracy Test.

Vendor: ES&S

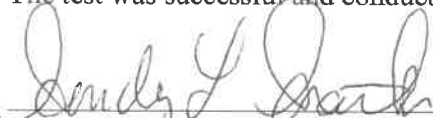

Software: 6.1.1.0

Type of Equipment Tested: DS200+ EXPRESS NOTE

Serial Number of Device:

DS200 EV DS031836041 EXPRESSNOTE EV0218350037
DS200 ED DS0318360238
